# TISSUE CULTURE METHODS

TISSUE CULTURE ASSOCIATION MANUAL OF
CELL, TISSUE, AND ORGAN CULTURE PROCEDURES

VOLUME 10

1986

JOURNAL OF TISUE CULTURE METHODS

VOLUME 10 NUMBER 1 1986

## TABLE OF CONTENTS

| Title | Page Number |
|---|---|
| Foreword<br>*Una S. Ryan* | 1 |
| Isolation, Culture and Subculture of Endothelial Cells: Mechanical Methods<br>*Una S. Ryan and Gayle Maxwell* | 3 |
| Microcarrier Cultures of Endothelial Cells<br>*Una S. Ryan and Gayle Maxwell* | 7 |
| Microvascular Endothelium, Isolation with Microcarriers: Arterial, Venous<br>*Una S. Ryan and Linda White* | 9 |
| Assay and Computation of Angiotensin Converting Enzyme Activity of Endothelial Cells<br>*Una S. Ryan and Linda Mayfield* | 15 |
| Immunofluorescence and Immunocytochemistry of Endothelial Surface Properties<br>*Una S. Ryan* | 27 |
| Electron Microscopy of Endothelial Cells in Culture: I. Transmission Electron Microscopy<br>*Una S. Ryan and Mary Ann Hart* | 31 |
| Electron Microscopy of Endothelial Cells in Culture: II. Scanning Electron Microscopy and OTOTO Impregnation Method<br>*Una S. Ryan and Mary Ann Hart* | 35 |
| Electron Microscopy of Endothelial Cells in Culture: III. Freeze-Fracturing<br>*Una S. Ryan and Mary Ann Hart* | 37 |
| Electron Microscopy of Endothelial Cells in Culture: IV. Surface Replicas<br>*Una S. Ryan and Mary Ann Hart* | 41 |
| Assay of Three Hemostatic Factors (Prostacyclin, Plasminogen Activator and Thromboplastin) in Bovine Pulmonary Endothelial Cells<br>*David Crutchley* | 45 |
| Cinematographic Analysis of Endothelial Cell Proliferation in Culture<br>*Marlene Absher* | 51 |
| Video Analysis of Endothelial Cell Geneology, Migration and Division<br>*Una S. Ryan and Linda Mayfield* | 55 |
| Endothelial Seeding of Filters, Grafts and Tubes<br>*Una S. Ryan and Bertha Olazabal* | 61 |

JOURNAL OF TISUE CULTURE METHODS

VOLUME 10 NUMBER 2 1986

## TABLE OF CONTENTS

| Title | Page Number |
|---|---|
| Foreword<br>*Wallace L. McKeehan* | 67 |
| Assay of Cell Attachment and Spreading Factors<br>*David Barnes* | 69 |
| Assay for Adipose Differentiation Using Primary Culture of Adipocyte Precursors<br>*Ginette Serrero and Dianne Mills* | 75 |
| Growth Factor Assays for Normal Human Hepatocytes and Hepatoma Cells<br>*Hiroyoshi Hoshi and Mikio Kan* | 83 |
| Bioassay of Interleukins<br>*Robert T. Abraham, Steffan N. Ho, and David J. McKean* | 93 |
| Practical In Vitro Assay Systems for the Measurement of Hematopoietic Growth Factors<br>*Donald R. Branch and Larry J. Guilbert* | 101 |
| Parameters for Optimizing Detection of Transforming Growth Factors<br>*Angie Rizzino and Eric Ruff* | 109 |
| A Serum-free [$^3$H]Thymidine Incorporation Assay for the Detection of Transforming Growth Factors<br>*Gary D. Shipley* | 117 |
| Purification and Assay of Intact Human Basic Fibroblast Growth Factor Using Heparin-Sepharose Chromatography<br>*Robert Sullivan and Michael Klagsbrun* | 125 |
| Use of Serum-free Hormonally Defined Media to Evaluate the Effects of Growth Factors and Inhibitors on Proliferation of Estrogen-responsive Mammary and Pituitary Tumor Cells in Culture<br>*Terry L. Riss, Masami Ogasawara, Kenneth P. Karey, David Danielpour, Betty H. Stewart, and David A. Sirbasku* | 133 |
| Assay of Growth Factors for Prostate Epithelial Cells<br>*Wallace L. McKeehan and Pamela S. Adams* | 151 |

JOURNAL OF TISUE CULTURE METHODS

VOLUME 10 NUMBER 3 1986

## TABLE OF CONTENTS

| Title | Page Number |
|---|---|
| ***CELL TRANSFORMATION*** — June A. Bradlaw and Daniel A. Casciano, *Issue Editors* | |
| Preface—Human Cell Carcinogenesis<br>*George E. Milo and Daniel A. Casciano* | 155 |
| Assessment of Chemical Carcinogen-Induced Transforming Activity Using BALB/c-3T3 Cells<br>*Edwin J. Matthews* | 157 |
| Methodology for Cell Transformation Assays with C3H/10T1/2 Mouse Embryo Fibroblasts<br>*Craig J. Boreiko* | 165 |
| Syrian Hamster Embryo Clonal Cell Transformation Assay<br>*Alice S. Tu, Wendy Coombes-Hallowell, and Stacie Pallotta* | 173 |
| Chemical Enhancement of Simian Adenovirus SA7 Oncogenic Transformation of Syrian Golden Hamster Embryo (SHE) Cells<br>*Ronald A. Lubet, Leonard M. Schechtman, Edith Kiss, and Raymond W. Nims* | 179 |
| The Use of Survival in Aggregation to Detect Potential Carcinogens with Retrovirus-Infected Fischer Rat Embryo Cells<br>*William A. Suk* | 185 |
| Methods for Quantifying Carcinogen-Induced Transformation of Diploid Human Fibroblasts to Anchorage Independence<br>*J. Justin McCormick, Suzanne Kateley-Kohler, and Veronica M. Maher* | 189 |
| Establishment and Chemical Transformation of Human Skin Epithelial Cells In Vitro<br>*Teresa A. Lehman, Ingeborg Noyes, and George E. Milo* | 197 |
| Mammalian Cell Transformation Assays: What Role Can They Play in the Identification of Carcinogens?<br>*Raymond W. Tennant* | 205 |

JOURNAL OF TISUE CULTURE METHODS

VOLUME 10 NUMBER 4 1986

## TABLE OF CONTENTS

| Title | Page Number |
|---|---|
| Replica Plating of Cultured Human Cells on Polyester Mesh<br>*Andrew Collins* | 209 |
| Cytochemical Localization of Glutathione in Isolated and Cultured Rat Hepatocytes<br>*Amparo Larrauri, Pilar López, M. José Gómez-Lechón, and José V. Castell* | 215 |
| Identification of Variables Critical to Reproducible Delipidation of Serum<br>*Ann Marie Capriotti and Michael Laposata* | 219 |
| A New Method of Processing Cultured Cells for Transmission Electron Microscopy: The Floating Sheet<br>*James R. Arnold and Paul J. Boor* | 223 |
| Monolayer Culture of Normal Human Esophageal Epithelial Cells<br>*Caryn L. Burg-Kurland, Dallas M. Purnell, John W. Combs, Curtis C. Harris, and Benjamin F. Trump* | 227 |
| Isolation of Satellite Cells from Ovine Skeletal Muscles<br>*M. V. Dodson, D. C. McFarland, E. L. Martin, and M. A. Brannon* | 233 |
| Simultaneous Processing of Substrate-Dependent Monolayer Cultures for Scanning and Transmission Electron Microscopy<br>*G. S. Dougherty, J. A. McAteer, and A. P. Evan* | 239 |
| MDCK Cysts: An In Vitro Model of Epithelial Cyst Formation and Growth<br>*James A. McAteer, Andrew P. Evan, Ellen E. Vance, and Kenneth D. Gardner, Jr.* | 245 |
| In Vitro Proliferation of Pluripotent Hematopoietic Progenitors<br>*E. Sumereau, P. Peulve, J. P. Vannier, P. Jean, and C. Ropartz* | 249 |
| A Method for Measuring Steroid Adsorption to Tissue Culture Plasticware<br>*Sheryl M. Longman and Gertrude C. Buehring* | 253 |
| Author Index | 257 |
| Subject Index | 258 |

*Editorial Office Use Only*

All manuscripts submitted to the Tissue Culture Association (TCA) must include this form, signed by the author(s). Form w
be returned with manuscripts not accepted.

MANUSCRIPT TITLE: _____

_____

AUTHOR(S): _____

This form should be signed by all authors (senior and junior) or by their authorized agent, except that in the ca
of an article commissioned by another person or organization or written as part of the duties as an employee, a
authorized representative of the commissioning organization should sign.

U.S. Government authors whose articles were written as part of their official duties should sign the seco
statement below.

I (We) hereby transfer to the Tissue Culture Association (TCA) copyright and all rights under it in the manuscri
named above, effective if or when it is accepted for publication.

SIGN HERE: _____ _____ _____ _____
